

Avenue, N.W., Washington, D.C. 20230; telephone : (202) 482-4733.

SUPPLEMENTARY INFORMATION:

Background

The Department of Commerce received requests to conduct a new shipper administrative review of the antidumping duty order on stainless steel bar from India. On November 28, 1995, the Department published in the Federal Register a notice of initiation of a new shipper review of Akai Asian and Viraj, two exporters of stainless steel bar to the United States (60 FR 58598). The review covers the period February 1, 1995, through July 31, 1995.

Because this review is extraordinarily complicated, we are unable to complete the review within the time limits mandated by section 751(a)(2)(B)(iv) of the Tariff Act of 1930, as amended by the Uruguay Round Agreements Act (the Tariff Act). See Memorandum dated June 4, 1996. Therefore, in accordance with that section, the Department is extending the time limit for the preliminary results to October 15, 1996.

Interested parties must submit applications for disclosure under administrative protective order in accordance with 19 CFR 353.34(b).

This extension is in accordance with section 751(a)(2)(B)(iv) of the Tariff Act (19 U.S.C. 1675(a)(2)(B)(iv)).

Dated: June 5, 1996.

Roland L. MacDonald,
Acting Deputy Assistant Secretary for Compliance.

Certain Welded Carbon Steel Standard Pipes and Tubes From India: Termination of New Shipper Antidumping Duty Administrative Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

ACTION: Notice of termination of new shipper antidumping duty administrative review.

SUMMARY: On January 22, 1996, the Department of Commerce (the Department) published a notice of initiation of a new shipper administrative review of the antidumping duty order on certain welded carbon steel standard pipes and tubes from India. The Department is now terminating this review.

EFFECTIVE DATE: June 20, 1996.

FOR FURTHER INFORMATION CONTACT:

Davina Hashmi or Michael Rill, Office of Antidumping Compliance, Import Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW, Washington, D.C. 20230, telephone (202) 482-4733.

SUPPLEMENTARY INFORMATION:

Background

On January 22, 1996 (61 FR 1562), the Department published in the Federal Register notice of initiation of a new shipper administrative review of the antidumping duty order on certain welded carbon steel standard pipes and tubes from India covering the exporter Rajinder Pipes, Ltd., and the period May 1, 1995 through October 31, 1995.

Based on Rajinder's questionnaire response, the Department determined that Rajinder made no sales to unaffiliated U.S. purchasers during the period of review or within a reasonable time after the period of review. Therefore, the Department is now terminating the review (see memorandum from Joseph A. Spetrini to Paul L. Joffe, May 17, 1996).

This notice is published pursuant to 19 CFR 353.22(h).

Dated: May 30, 1996.

Joseph A. Spetrini,

Deputy Assistant Secretary for Compliance.

BILLING CODE 3510-DS-M

University of Albany, et al.; Notice of Consolidated Decision on Applications for Duty-Free Entry of Scientific Instruments

This is a decision consolidated pursuant to Section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, 80 Stat. 897; 15 CFR part 301). Related records can be viewed between 8:30 A.M. and 5:00 P.M. in Room 4211, U.S. Department of Commerce, 14th and Constitution Avenue, N.W., Washington, D.C.

Comments: None received. Decision: Approved. No instrument of equivalent scientific value to the foreign instruments described below, for such purposes as each is intended to be used, is being manufactured in the United States.

Docket Number: 96-012. Applicant: University of Albany, Albany, NY 12222. Instrument: Mass Spectrometer, Model OPTIMA. Manufacturer: Fisons Instruments, United Kingdom. Intended Use: See notice at 61 FR 11614, March 21, 1996. Reasons: The foreign instrument provides: (1) A high sensitivity ion source yielding low H_3^+

ion production during H/D analysis, (2) an acid-bath workstation to permit simultaneous C:N ratio analysis and (3) a universal triple collector assembly consisting of three Faraday collector buckets capable of N_2 , O_2 , CO_2 and SO_2 analysis. Advice received from: The National Institutes of Health, March 27, 1966.

Docket Number: 96-014. Applicant: Columbia University, Palisades, NY 10964. Instrument: Mass Spectrometer, Model OPTIMA. Manufacturer: Fisons Instruments, United Kingdom. Intended Use: See notice at 61 FR 11614, March 21, 1996. Reasons: The foreign instrument provides: (1) A high sensitivity ion source yielding 1100 molecules CO_2 per mass 44 ion, (2) a universal triple collector assembly consisting of three Faraday collector buckets capable of N_2 , O_2 , CO_2 and SO_2 analysis and (3) a dual microinlet with automatic cold finger. Advice received from: The National Institutes of Health, March 28, 1996.

The National Institutes of Health advises in its memoranda that (1) the capabilities of each of the foreign instruments described above are pertinent to each applicant's intended purpose and (2) they know of no domestic instrument or apparatus of equivalent scientific value for the intended use of each instrument.

We know of no other instrument or apparatus being manufactured in the United States which is of equivalent scientific value to either of the foreign instruments.

Frank W. Creel,

Director, Statutory Import Programs Staff.
